“JMA was very professional when contacted for deposition scheduling and the turn-around time for the deposition transcript was terrific.”

“I have used the videography services of JMA Court Reporting, LLC, in a variety of cases, and in a variety of contexts, to great effect. The work is professional, engrossing, and the cost is reasonable. I cannot commend Mr. Joe Fanning's videography services strongly enough.”

“JMA Court Reporting has provided court reporters for us on many occasions. No matter how big or small the deposition, I feel confident that the final transcript will arrive accurately and on time. ”

“Joe,
I want to thank you and your team for their professional services . From scheduling to recording and transcribing to following up, your entire group was first rate. An accurate, timely transcript was delivered soon after the deposition and there was a personal touch not often found at the "big" court reporting services around town.”
